

Informational Interview Fact Sheet

Informational Interviews

Using informational interviews to support learning is a structured Career Exploration activity in which students/learners formally interview an employer partner about his or her industry, educational and career path, and chosen profession. Students may also explore the range of career opportunities within the company or industry, opportunities for growth and the salary ranges for different occupations.

Designed to meet specific learning objectives, informational interviews are educationally rich, are tied to the curriculum, and help students/learners connect what they're learning in school with the workplace. Unlike a guest speaker activity, where speakers usually address a group in the classroom, informational interviews are one-to-one interactions and generally take place at the company's workplace. They may also be conducted via telephone or online – ideally utilizing Facetime or ZOOM.

Informational interviews are one activity in the continuum of authentic work-based experiences provided to all students/learners engaged in career-related programs or course of study in the Earn & Learn community.

Informational Interviews are designed to:

- Provide exposure to potential careers and jobs.
- Provide a realistic picture of the business, its role in the community and the career paths and occupations of its workforce.
- Help students/learners make the connection between school and the workplace.
- Inform career planning.

Informational Interviews are structured to:

- Offer students/learners the chance to practice and demonstrate key professional skills, including communication, critical thinking, workplace appearance and timeliness.
- Enable students/learners to begin identifying areas of career interest.
- Build knowledge about the education and training needed for a particular job, career path and entry into the industry.

Informational Interviews are supported by:

- Classroom preparation, including research on the industry and participating businesses.
- Employer orientation and support.
- Opportunities to reflect upon the experience verbally and in writing.

Informational Interviews are connected to:

- Individual career development/training plans.
- Future work-based learning activities.
- The student/learner's next steps.
