

Career Mentoring Fact Sheet

Career Mentoring

Career Mentoring is a Career Exploration activity in which a student/learner is matched one-on-one with an adult professional to explore potential careers and related educational issues. Different than programs such as Big Brothers, Big Sisters, the career mentor serves as a *career* resource by sharing insights and providing guidance about the workplace, careers and postsecondary education/training. This is accomplished through formal and informal meetings organized at the school, in the workplace or online, but never in an unsupervised environment or the home. Some career mentors may work with and support a small group of students/learners.

Building a trusting relationship between the student/learner and the mentor is the key to a successful experience. Designed to meet specific learning objectives, career mentoring is educationally rich, is tied to the curriculum, and helps students/learners connect what they're learning in school or training with the workplace.

Career mentoring is one activity in the continuum of authentic work-based experiences provided to all students/learners engaged in career-related programs or course of study in the Earn & Learn community.

Career Mentoring is designed to:

- Give students/learners exposure to jobs, careers and industries.
- Help build a relationship with a caring and knowledgeable adult.
- Offer a chance to practice communication skills and develop professional skills.
- Help make the connection between school and the workplace.
- Inform career planning.

Career Mentoring is structured to:

- Build self-esteem, self-worth, confidence and flexibility.
- Build occupational knowledge.
- Enable students/learners to identify areas of career interest.
- Allow for the mentor and mentee to select each other.
- Build knowledge about the education and training needed for a particular job, career path and entry into the industry.

Career Mentoring is supported by:

- Classroom preparation and reflection upon the experience verbally and in writing.
- A long-term commitment from an adult role model (generally at least a year).
- A focus on building trust and respect with each other.
- Clear and reasonable expectations for students/learners and their career mentor.
- Meetings or communication with enough regularity to develop a strong relationship.

Career Mentoring is connected to:

- Individual career development/training plans.
- A continuum of future work-based learning activities that build over time.
- The student's/learner's next steps.
